A solid background in the fundamentals of public power, public agency administration expertise, broad knowledge and experience in leadership roles and a proven track record of community service, highlight my credentials for this office.

I'm a longtime supporter of the public power concept and understand the duties and responsibilities of the Commission. I'm a firm believer in frequent communications with utility stakeholders. Maintaining a high level of public involvement will establish a sense of trust with rate payers and will be my continuing goal. Stable rates, reliable service and financial integrity will head my list of priorities.

As your public utilities commissioner I will work to keep reasonable and stable utility rates so that our standard of living is maintained and business will thrive. I will make informed decisions and try to prevent an "energy crisis" from being exploited for exaggerated profits, which benefit few and harm many.

I will work with you, the consumer, and all persons who deliver the utilities so that the interests of all will be well served.

College educated, construction worker, social worker, professional artist.
